

SEASON'S MARK

Covering by Shorts Forces Price to 29.21c—Spot Holders Firmer.

Covering by October shorts in the cotton market yesterday caused a sensational advance in that delivery to 29.21c, a new high price for the season.

The market opened steady at an advance of 16 to 28 points on the unfavorable weather report for December contracts.

The weather map showed continued clear weather in the South, but the freezing temperatures were to be generally visited by killing frosts.

Southern spots advanced to 28 points with moderate volume of business. Eastern spots advanced to 26 points.

NEW ORLEANS, Oct. 23.—Cotton scored moderate advances here today and some cotton were reported to have been sold.

U.S. SHUTS GATES ON GERMAN GOODS

Customs Officials Eager to Prevent Any Trade With Teuton Nations.

Following instructions issued to customs officials at various ports throughout the United States, American customs officials are closing their eyes to the origin of goods of German or Austrian origin not owned by American citizens.

A prominent Customs House broker explained yesterday that although the Collector had for some months been carefully scrutinizing invoices he had been looking for goods of German origin even though they may have been invoiced from Copenhagen, Rotterdam or other places.

Credit authorities are beginning to ask if the new income taxes are likely to impair the credit status of their accounts in the manufacturing trades, particularly those who have largely increased their capital during the last year.

Yokohama cables yesterday described the raw silk market in Yokohama as firm, with an advance of 10 yen and an upward tendency.

New England, and especially Massachusetts and Connecticut, is reflecting prosperity in a better retail silk business than this fact has ever enjoyed heretofore.

With many of the manufacturing centers of the New England States, the mills running twenty-four hours a day the retail merchants, particularly in the smaller towns, are enjoying a boom.

The difficulty which sellers are experiencing in securing merchandise leads them to the conclusion that considerably more than a year ago.

At a meeting of the Retail Millinery Association of America yesterday at the Hotel McAlpin the proposed reduction of discounts by the National Millinery Association was discussed.

The speaker emphasized that the industry is not in a position to be best served by using a liquid credit instrument in mercantile transactions.

BALANCE SHEET NOW IN FAVOR OF ALLIES

Bankers Trust Co. Shows Superiority in Men, Money and Resources.

The superiority of American and her allies in men, money, geographical area and natural resources over Germany and her allies is set forth in startling manner by means of text, tables and maps in a pamphlet entitled "The Balance Sheet of the Nations at War," which has just been prepared by the Bankers Trust Company and is issued yesterday as a part of the Liberty Loan campaign.

The pamphlet is of a kind that should bring cheer to the hearts of Germany's enemies, the compilers of the booklet make it clear that it is up to the plain citizen to put a shoulder—and a dollar—into the front right row if the present deplorable state of world conditions is to be ended.

America and her allies, the pamphlet shows, have 74.4 per cent of the area of the world, 74.3 per cent of the population, without taking into consideration the large Asiatic population.

Germany, on the other hand, has only 6.6 per cent of the area, 12.2 per cent of the population, and 12.2 per cent of the men of military age available for military service.
